

Figure HED-33
S&E degrees awarded per 100,000 of the 20- to 34-year-old population, by selected country: 2011–20

Note(s):

Figure includes the top five countries by S&E doctorates awarded in 2020. To facilitate international comparison, data for the United States are those reported to the Organisation for Economic Co-operation and Development, which vary from the National Center for Science and Engineering Statistics classification of fields presented in other sections of the report.
